Satchwell Discrete Controllers Notice of
Withdrawal

As Schneider Electric continues to transition our valued legacy building management system customers to SmartStruxure™ solution, we would like to announce the notice of withdrawal of the Satchwell line of Discrete Controllers due to low sales and an increasing inability to source parts, effective 15 July 2016.

We will continue to accept orders of Satchwell Discrete Controllers through 15 July 2016. Since this is the last date that these orders will be fulfilled and no replacements will be available, it is highly recommended that you purchase any quantity of controllers for support and service spares of your local installed base prior to this date.

Following are Satchwell parts available for order through 15 July 2016:

Part number	Description
0561-9-260	ANALOGUE CLOCK FOR CSC OR SVT
0561-9-261	DIGITAL CLOCK FOR CSC OR SVT
0588-9-210	BATTERY FOR SVT
0833-1-601	FIXED RESISTOR 0-10V
0833-1-602	FIXED RESISTOR 0-20MA
0841-2-201	REAL TIME CLOCK ACCESSORY
CSC5252	CLIMATRONIC CSC WITHOUT CLOCK
CSC5352	CLIMATRONIC CSC WITH TIMECLOCK
CXR5805	CXR RESET CONTROLLER
CXT5605	CXT PULSED ACTION CONTROLLER
CZT5305	CZT PROPORT ACTION CONTROLLER

With this announcement all the Satchwell Discrete Controllers will have been withdrawn. As a reference point, below are previously withdrawn Satchwell Discrete Controllers:

Part number	Description
04-03-105	DC1100 CONTROLLER
CZU4201	ZONEMASTER TEMP.CONTROLLER
DC1400	DC1400 CONTROLLER
DDC2601	REMOTE DISPLAY (DDC2601)
SVT4201	CONTROLLER OPTIMISER
SVT4251	CONTROLLER OPTIMISER

Schneider Electric's SmartStruxure™ solution offers new opportunities to bring advanced solutions and services to your customers, such as increased engineering efficiency, simplified integration, reduced complexity and a superior user experience. It is the preferred platform to take your customers into the future.
