

# Technical Document

## Niagara System Database and System Indexing Guide

April 20, 2021

niagara

This PDF was created from documentation on [docs.niagara-community.com](https://docs.niagara-community.com). For the most current Tridium product documentation, go to [docs.niagara-community.com](https://docs.niagara-community.com).

## About this guide

This topic contains important information about the purpose, content, context, and intended audience for this document.

## Product documentation

This document is part of the Niagara technical documentation library. Released versions of Niagara software include a complete collection of technical information that is provided in both online help and PDF format. The information in this document is written primarily for Systems Integrators. To make the most of the information in this book, readers should have some training or previous experience with Niagara software, as well as experience working with JACE network controllers.

## Document content

This document provides an overview of the System Database and System Indexing features in Niagara 4.6 and later, as well as details specific to setting up the System Database for indexing both local and remote stations.
