

Ecoreal^{MV} becomes EcoStruxure Power Build - Medium Voltage

The Software **Ecoreal^{MV}**, has been relaunched as **EcoStruxure Power Build - Medium Voltage**, a part of our Customer Lifecycle Software connected with the EcoStruxure Power Platform. At each step of your Project's Lifecycle, these tools will simplify and help you design, build, commission, operate and maintain faster electrical installation.

Terms and conditions have been updated. You should validate them before using the software.

UPDATED FEATURES

Update of the layout drawings for PIX Easy FR and PIX Easy MR

The layouts of the Primary Air Insulated switchgears PIX Easy FR and PIX Easy MR have been updated with new front views. The layout of the different cubicles in a project are now assembled to create a real and global layout of the project.

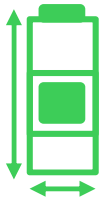

[View Details](#)

Changes in the 'Archived Projects' Feature

Projects are automatically archived after 30 days without any changes. You can decide yourself to archive or unarchive a project.

Changes in the 'Archived Projects' Feature

Projects are automatically archived after 30 days without any changes. You can decide yourself to archive or unarchive a project.

The screenshot shows the 'Projects' page in the Ecostruxure Power Build interface. At the top, there is a search bar and a dropdown menu for project status, which is currently set to 'Archived projects'. Below the search bar, there is a table of projects. The table has columns for project name, creation date, modified date, and the person who created it. The projects listed are:

Project Name	Created on	Modified on	By
Quotation		12 Dec 2019	Rossoune Kennar
Hainam 1st order - 13 cubicles	03 Sep 2019	12 Dec 2019	Narayan Prasad Nr
