# What is EcoStruxure™ Facility Expert?

EcoStruxure Facility Expert is an IoT-enabled cloud-based facility management software and app that delivers operational efficiency and energy cost savings to individual retail facilities and multi-site buildings, ensuring business continuity and loss prevention.

## Benefits

EcoStruxure Facility Expert helps deliver valuable services to optimize operations, monitor energy, and control HVAC&R equipment remotely via smart devices in either single or multi-site buildings. Other features include:

- Identify equipment failure(s) in real-time
- Receive alarms and notifications 24/7 i.e. abnormal freezer temperatures, load power supply issues, unusual equipment operations
- Diagnose remotely via equipment data and maintenance history
- Control on/off switching of targeted devices remotely
- Access connected thermostats remotely
- Modify setpoints and operational sequences
- Control unit mode (heating/cooling) during off-season

## Features

- 6-month free multi-site license subscription
- Free Acti9 PowerTag Link C gateways
- Free customer testimony and external promotion by Schneider Electric (for retail chains with 20+ sites)

## When?

April 1st - October 31st, 2020

## Who?

- EcoXpert™ partners, specialized in retail
- Partners who have completed the Facility Expert multi-site online training path
- Access the online training through [PRM](#) and [Exchange](#)

Contact your local sales representative or [EcoXpert Channel Manager](#) today.
